Supporting the Queen of Sports

Since its founding, Comtrade has actively supported sports, with athletics always holding a special place. As a former athlete himself, and deeply connected to the sport, Mr. Jevrosimović took on the demanding role of President of the Serbian Athletics Federation, a position he held for 14 years. From the construction of the Belgrade Athletics Hall, through the organization of numerous top-level international competitions, to an impressive medal tally achieved by Serbian athletes, his tenure — the most successful in the Federation's history — will be remembered as a period of complete revival of Serbian athletics.

Comtrade further extended its support by serving as the general sponsor of the Belgrade Marathon for two consecutive years. The 2024 and 2025 editions marked the highest participation in the marathon's history.
